📍 Soha Residency, near Marwat hospital, Gizri

## SUMMARY

Final year computer science student specialized in the MERN Stack and a 6-star HackerRank problem solver. Skilled in developing clean, efficient web applications. Proven team player with strong software development expertise.

## PROJECTS

### Reactive Express

🌐 <https://reactive-express.vercel.app/>

Developed an e-commerce app using MERN Stack with secure login/signup, product search, and cart management features. Stripe API integration for easy payment processing. Admins have CRUD functionality for product and user management, and the ability to mark orders as delivered. Built using React, Redux, Node, Express, MongoDB, Mongoose, bcryptjs, JWT, and Local Storage.

### Gold's Gym Exercises

🌐 <http://goldsgymexercises.netlify.app/>

I developed a React app for my personal project that showcased my proficiency in API fetching and managing side effects. The app incorporated the Material UI library for design and development, highlighting my ability to utilize external tools to enhance user experience.

### Tenzies Game

🌐 <https://tenziesgamebylabheshwar.netlify.app/>

Co-developed Tenzies Game, a popular dice game made entirely with React JS, along with my Scrimba.com instructor. It's been well-received and shows my ability to create fun and interactive web apps.

## EDUCATION

### Bachelor of Computer Science

University of Sindh

📅 2020 - 2023

GPA

3.85 / 4.0

## ACHIEVEMENTS

🔗 META CERTIFIED FRONT-END DEVELOPER

[VERIFY HERE](#)

🏆 6-STAR HACKERRANK PROBLEM SOLVER

## EXPERIENCE

### MERN STACK APPRENTICE

#### Slim Coder

📅 01/2022 - 04/2022

- Node CRUD using web frameworks such as Express.
- Latest authorization/authentication techniques such as Google OAuth.
- Built an E-Commerce Website from Scratch

### MERN STACK DEVELOPER INTERN

#### Hostelin

📅 10/2022 - 12/2022

- Utilized token-based authentication and authorization, REST API best practices, Redux, and Context API to develop robust features.
- Demonstrated effective team management skills.
- Mentored a junior intern in project tasks and responsibilities.

## SKILLS

React.js

Node.js/Express.js

No-SQL (MongoDB)

Core JavaScript

Version Control (Git)

SQL (Oracle SQL)

PLSQL

HTML

CSS

Redux

Data Structures

Object-oriented Programming

## SOFT SKILLS

Problem Solving

Team Work

Formal Communication

Time Management
