

# LABHESHWAR

## SOFTWARE ENGINEER

Karachi, PK • +92-3438370414 • [labeshsharma@outlook.com](mailto:labeshsharma@outlook.com) • [linkedin.com/in/labheshwar](https://www.linkedin.com/in/labheshwar) • [github.com/labheshwar](https://github.com/labheshwar)

Experienced software engineer with a year of expertise in delivering successful enterprise projects. Collaborated effectively with diverse teams and thrived on secure, high-performance projects. Proficient in React, Redux, Node, Express, Java, Spring Boot, SQL, REST, and Git, with a focus on modern design principles and Agile methodologies.

---

Software Development Life Cycle | Core JavaScript, Advance JavaScript | RESTful Web Services | SQL | NoSQL | Test Driven Development | Data-Intensive Applications | Code Refactoring | Fintech

**Languages:** JavaScript, Java, C

**Web Services:** REST

**Frameworks:** ReactJS, NextJS, Express, Socket.io, Parcel, Webpack, Spring (Boot, Security, Dependency Injection)

**Databases:** SQL, Oracle, MongoDB

**SDLC:** Agile, Test-Driven Development (TDD), Waterfall

**Tools:** Git, GitLab, Bash, JIRA, Postman, VS Code, IntelliJ, DBeaver

**Soft Skills:** Problem Solving, Teamwork, Communication, Creativity, Debugging

**Platforms:** Windows, Linux

### PROFESSIONAL EXPERIENCE

#### Associate Software Engineer

October 2023 - Present

[PaysysLabs](#), Karachi, Pakistan

- Involved in development of Developed & managed projects including RAAST Integration with 1Link-1App.
- Integrated RESTful APIs using Reactjs and maintained the projects as a Full Stack Developer.
- Managed project state using modern frameworks like Redux ensuring robust application performance.
- Used debugging techniques skillfully to understand and improve legacy code.
- Implemented CI/CD for building, testing and deploying automatically to related environment.
- Worked in team to make the product more bug-free, secure and meeting up to the deadlines.

**Technologies Used:** Reactjs, Reduxjs, AntD, TailwindCSS, Formik, Axios interceptors, Java, Spring Boot, Oracle, SQL, REST, JIRA, Postman, Git, GitLab CI, Bash.

#### Frontend Developer

July 2023 – October 2023

[Transviti](#), Karachi, Pakistan

- Developed & managed variety of projects including social media application and enterprise solutions.
- Led the creation of chatting from scratch, end-to-end messaging, group chat capabilities, and file sharing.
- Built dynamic dashboard based on the latest plots and charts, allowing user to dynamically change layout.
- Used the latest technology trends and practices ensuring better code reusability and quality.

**Technologies Used:** React.js, Redux.js, React Bootstrap, Material UI, g2Plots, Axios, SignalR, Git, Bit Bucket

#### MERN Stack Intern

Aug 2022 – Dec 2022

Hostelin – NIC MUET, Jamshoro, Pakistan

- Worked as a full stack developer to achieve building a hostel booking project from scratch.
- Demonstrated effective coding and team management skills.
- Within 3 months, we were able to complete the project.

**Technologies Used:** React.js, Redux.js, Node.js, Express.js, MongoDB, JWT, Git, GitHub.

## PROFESSIONAL PROJECTS

### **1App -1Link (RAAST)**

– Paysys Labs PVT. LTD

**Responsibilities:** (Integration of RAAST with existing project, Agile methodologies, Scrum meetings, Responsive Designing, Role Based Menu and Screen Routing, Code Refactoring, Enhancing client experience with modern design, Access Control using Interceptors, REST APIs development and Integration using React.js, Redux.js, Java, Spring Boot)

### **TaskVare**

– Transviti

**Responsibilities:** (Building pixel perfect modern layouts, ensuring responsiveness, creating skeleton screen for better user experience, creating dynamic dashboards, creating and managing real time, end-end as well as group chat flow using Redux and App Context)

## PERSONAL PROJECTS

### **Students Guide** | [GitHub](#) | [Live](#)

– Personal (FYP)

**Responsibilities:** (Building complete full stack project from scratch (not theme-based), designing project, creating REST APIs, role-based authentication and screens, getting user feedback, ensuring features like user-management, university-management, classroom management, job finding, course-management, end-end chat are all up to the mark, deploying on Vercel)

Techstack: Next.js, Express.js, Node.js, Socket.io, MUI, AWS S3-Bucket, TailwindCSS, MongoDB, Nodemailer, Redux.js

### **Reactive Express** | [GitHub](#) | [Live](#)

– Personal

**Responsibilities:** (Designing and developing a full stack E-Commerce website with payment gateway using Stripe, Role-based authentication using JWT, Responsive design using React.js and bootstrap, developed APIs with cloud image uploading solutions like cloudinary, state management flow using Redux.js, API testing with postman, deploying on Vercel)

Techstack: React.js, Express.js, Node.js, Stripe API, React Bootstrap, Redux.js, Cloudinary, MongoDB Atlas, JWT Authentication and authorization

## EDUCATION

### **Bachelors in Computer Science**

2020 – 2023

University of Sindh, Jamshoro, PK

GPA : 3.93

## CERTIFICATIONS

### [META Certified Frontend Developer](#)

Coursera

### [Front End Development Libraries](#)

freeCodeCamp

### [ReactJS Complete Guide For Web Development](#)

EdYoda (Udemy)
